

15

Years of warranty on the modules and mounting system together.

The benefits at a glance:

- 15-year warranty on all combinations of IBC SOLAR modules and IBC SOLAR mounting systems¹
- 5-year longer warranty than standard for the IBC SOLAR mounting systems in combination¹
- Protection of consequential damage within the combination of IBC SOLAR mounting systems and IBC SOLAR modules
- In the event of damage, only one contact person and warranty provider – top argument towards end customers
- Available starting September 2020. Absolutely free.

Extraordinary within the industry!

The IBC SOLAR Combination Warranty ensures that damages that occur with the combination of IBC SOLAR modules and IBC SOLAR mounting systems are covered – for 15 years. The products of the IBC SOLAR modules and IBC SOLAR mounting series are subjected to extensive testing – also in combination. That is why we can offer this outstanding guarantee promise. And another plus: There is only one contact person and guarantor in the event of damage.

We are happy to explain all the aspects and advantages of the IBC SOLAR Combination Warranty in our webinar:

WEBINAR

The Combination does it – with the right warranty less stress in the event of damage.
